Dear Anonymous,

Your query is one of the good queries i have gone through till now. It has almost all the questions of your life and i appreciate such queries. I have clearly checked all doubts raised by you and given out the reply to it.

Your chart is drawn and kundali is prepared according to the vedic astrology by the birth details you have provided to us. Below are the answers for all your questions :

Your birth star is aswini and the lagna is tula. You have good yogas in your charts.

Your running dasa is ketu dasa and it will be for 3years 7months and 28 days.

You will have an esteemed life after your 35th year. The yogas present in your charts indicate that you will be renowned to a peak position of your career and professional life. You will have sudden rise in your life which is unexpected and your wealth.

1. Yes you have really a bright career because of good yogas are present in your horoscope. This presence makes clear of the doubts about your financial, career, etc. You have good positions of the both the planets saturn and mars in the chart. You will surely get a job in relation to your subject. No doubt you will get good position in your job but you have to wait for one year because after one year your chart shows that you will have good rise in our professional life.

2. You are having many number of abroad chances that too by your job. The chances are more likely from 20th of february 2010. You will moving from place to another because of your job and the chances are high for you.

3. As i have already said that you will have an excellent rise after your 35th year. The rise in all aspects will be enormous. So, no worry for your financial status.

<p4.>4. Coming to marriage aspect : You have strong indication of arranged marriage with loved one. The marriage aspect is after your 26th year. Your married life is a fruitful one. It indicates that she is from a well disciplined and traditional family. She would a beautiful one and her profession is related to computers.

After marriage you will be exalted to a good reputation. I can say that you will be more strong in all aspects after your marriage.

5. As i have already there are good yogas in your navamsa chart which indicates the goodness of the chart.

Overall you have a very good kundali and again i state that you have very good life after marriage and never forget to match your horoscope with that of bride's. It is recommended for your chart and right now you do not have any remedies to be performed. I can suggest you to chant hanuman chalisa daily for fruitful results. All the very best.

2. Dear Anonymous,

It is very clear from your query that you have a little bit knowledge of Astrology as you have written that you have a virgo Ascendent, Mesh rashi and Ashwani star(charan-2),it is very much right.

First of all i would like to discuss about your career,let us see the position of 10th house you 10th lord Mercury is in 4th house , is also aspecting its own house and is associated with 9th lord Venus,12th lord Sun-this shows that you will de\_nately achieve a high rank,but the chances are more while going abroad as your 10th lord is having the association with the 12th lord(the house of foreign land) and your 10th lord has the aspect of Rahu(the foreign related planet).There is no bene\_c aspect on the 10th house.

Now let us see the position of 10th house from Moon the 10th lord from Moon is Saturn it is posited there in the 7th from moon-it shows diplomatic service and exalted Mars the rashi lord is posited there at the 10th position from Moon,but this also have the 8th position from Moon- this will result into your rise in foreign land but with obstacles,dont worry dear your 10th lord from Moon is exalted and will give you a stable job.There is again no bene\_c aspect on the 10th house.

Let us see the 10th house from Sun as Sun is also the karka of profession, 10th from Sun is having the lordship of Mercury and is posited with Sun the karka for profession, it shows the high rank but shows that you are self employed and shows that you will de\_nately rise high in life, but again there is no bene\_c aspect on 10th from Sun.

Lastly we will see the navmasha chart in navmasha the 10th lord Venus is in 10<sup>th</sup> house it shows your great success in career, it shows your career is bright and you will get a commanding position in job but with remedies.

From above discussion it is very clear that you will get the commanding position in job but with remedies.

Now i would like to tell that chances of promotion are there after 19th December 2009.

There is also an inuence of Sade Satiis there so remedy is again required for Sade Sati.

The chances are more for job abroad as the 12th lord, 9th lord and 10th lords are associated and the Rahu has the aspect on these as i have mentiond earlier, we can say that chances are bright abroad and you will go abroad within December 2009 to June 2010.The chances are to settle ther then having constant travelling.

This now time to discuss the financial position, i would like to see the financial position through Indu Lagna.-In your horoscope lord of 9th from lagna is venus it has been allotted 12 kalas.The lord of 9th from moon is jupiter who gets 10 kalas the total kalas are 22 and are divided by 12 and the remainder is 10,so count 10th from moon it is Capricorn,ther is no bene\_c and the male\_c aspect on it and the position of Mars in Indu Lagna shows moderate wealth and 2nd from it has no planet and no aspect,but dont worry dear 11th from Indu Lagna has the Jupiter posited here,it shows your good position of wealth ,but with no bene\_c and male\_c aspect,lastly we can say that you have a moderate wealth-as also in your lagna chart the saturn is posited there in the 2nd house again shows your moderate wealth,but this position of planets will give you pleasure and happiness in the foreign land.

Let us come to the next point i.e.marriage-your 7th house has a duel sign shows that she will be so so,but her complection will be fare as navamsha occupied by7th lord is moon.Your 7th lord in 3rd shows that you will be lucky after marriage as this is the 9th position from itself.Venus the karka for marriage is hemmed with two male\_cs and one enuch planet ,shows that the girl will not be excellent,but no need to worry dear the Jupiter has the aspect on the 7th house,this is the saviour factor. There are no chances of love marriage and intercast marriage.

Oh! Dear why are you worried about mahadasha of Rahu that will start from the year 2029, means after 20 years, then why to worry about that in advance?

Now a day there is a mahadasha of Sun is running.

Why to worry dear you some good yogas in your horoscope which will give good results in their dashas and antras, the yogas are three types of dhana yogas, First is Lagna lord and 2nd lords are associated gives rise to dhana yoga-shows you will definitely be wealthy.

Second is again dhana yoga as there is a relation between 2nd lord and 9th lord, it will also give wealth.

5th lord Saturn has the relation with 9th lord and 11th lord-this also forms a dhana yoga, this will also result into riches.

The others are Saveeryaddhava yoga, Vaha yoga, Karmajiva yoga, Raja yoga, Karamasidhi yoga, Bharathi yoga and Rajasambandha yoga.

You also have a Sakalatra yoga as Venus has a conjunction with Mercury-this shows that your wife will be noble and virtuous, then why to worry about marriage.

In sarva ashtakvarga your 2nd house has 39 bindus these are above 30 and shows your sound financial position.

In 7th house you have only 19 bindus these are below 30 and shows the average position of this house, means married life will be so so but you will rise after marriage (professionally).

The 10th house has 29 bindus these are again below 30, so will be more financially sound at the later stage of life.

Why to worry dear overall your horoscope is good.

My best wishes are with you Chaten.

3. Dear Anonymous,

Before I write something for you, I just wanted to say that it would have been a pleasure for us, instead, to write for a limited topic a maximum 2 or 3. In your query, you have dumped it with numerous questions making it a clumsy one. You could have split it into two or three separate queries! Any way, I have tried to cover all your questions in the following analysis.

You were born with Nakshatra Aswini, Ascendant Virgo and Rasi Aries. You are running under present dasa of Sun Jupiter up to 29/06/2009.

Your chart is a promising one with many planets in exaltation positions Saturn in Libra (2nd house), Rahu in Gemini, Ketu in Sagittarius and Mars in Capricorn. Exalted planets seldom do bad for the native. Your Nakshatra lord is also Ketu and it indicates your inclination towards spiritualism. The negative placements are Jupiter in 3rd house and Moon in 8th house. Mercury, your lagna lord is a Vargottam Planet, placed in 4th house, a definite benefit and most important planet for you. Your career is promising as Mercury is also your 10th house lord. Exalted Rahu placed in it and aspect of Sun and well placed Venus (in 4th house) will give you rise in your career. You are in the correct profession of software and I do not feel that other profession may suit you. It is very much possible that you work abroad as 12th house lord, Sun is conjunct with your career house lord, Mercury and Rahu (indicator of foreign residence) placed in your 10th house and aspect 10th lord. It might be possible that you got opportunity of foreign travel during Sun Rahu (Oct 2007 Sep 2008) and you are already in US. It is very much likely that your foreign stay will continue for long days.

Your marriage: 7th house shows marriage and in your chart, 7th lord, Jupiter is ill placed in 3rd house. UL, Upapada Lagna, denotes spouse and it is in Aries and placement of Moon in UL indicates that she will be from a wealthy family and a good looking girl. UL in 8th house will indicate that her family culture and status will be much different from you. 2nd house from UL receives aspect from Jupiter and it indicates a good marriage. Exalted Mars in 5th house (love, romance) will indicate many relationships before marriage but you will have arranged marriage ultimately.

Rahu is exalted in your chart and Rahu dasa will be good for you.

Your navamsa chart is also a strong chart with exalted Moon in 5th house and Venus in own sign of Libra in 10th house. There are many yogas in navamsa chart including Bipareet Raj Yogas.

4. Your Lagna is Libra and Rajyogkarak Saturn in Lagna making a wonderful Rajyog which will fully fructify after the age of 30. This kind of Rajyog is believed to be present in the charts of some very famous people and gives the native wealth, prosperity and happiness to a very high degree.

Whether my career is bright and will I get commanding position in job??

Any chance of promotion this year??

In your charts, the planetary positions are very good : Saturn Exalted, Mars exalted in 4th house. These two will help you get most of the comforts at home and wealth.

But as you would be well aware, Mars gives its best after the age of 28 and Saturn after the age of 30, so you will have to wait patiently.

From April 2008 to February 2010, you are under favourable sub dashas of Your Sun Mahadasha. So, this time anyway should give you good career. Your Lord of Career is Moon and present in 7th house should be able to give you lots of benefits from career. But as I mentioned earlier, for Libra and Taurus Lagnas, these benefits are kept pending till the age of 30. After which when the Saturn effects start, you will get all benefits from career also as Saturn is giving full drishti to Moon which is your Lord of Career.

When can I get married also about my wife, her looks, her career etc. Whether she will be modern or will have blend of traditional values as well??

Will I have love/ inter-caste marriage??

Regarding marriage, your 7th Lord Mars is exalted in 4th house so you cannot expect an inter-caste marriage. Your marriage is expected to be with a known person and if charts are matches properly, Venus in 3rd and Mars in 4th can give you a very good marriage. Regarding timing of marriage, Saturn aspecting the house of marriage as well as Lord of marriage "Mars" will give stable marriage but late. So, it will be better for you if you marry after the age of 30. Yogakarak Saturn's aspect on marriage is not considered bad anyway so if marriage is done late, it will have good sustenance.

any chance of spiritual progress ??

will my Rahu Mahadasha good??

Rahu in 9th house does not give a chance for spirituality but then Karma can always take over so, if you have feelings of spirituality and you keep promoting them, you may have some spiritual progress....

I have one question In Dasamsa chart the 5th is occupied by Rahu, Merc, Jup and the 7th Lord Mars aspect so will it give unconventional marriage ?? Is my Navamsa chart is having Vipareet Raj Yoga and other good Yogas plzz tell

According to me, in Dasamsa, there are no planets in 5th house. Although the 10th Lord in Dashamsa is in 9th house and Lagna Lord in 12th house which could give you a foreign settlement and career.

In Navamsa, 7th house has Saturn and Mercury, which again confirms late marriage and also Mangal Dosh, so you are advised to marry a Manglik girl.

5. Dear Cehtan,

I have gone through your long query and on the basis of your data supplied, I prepared your horoscope and the basic details are as under

Virgo Ascendant/Aries Moon/Ashwani Nakshatra

Point wise reply to the question raised by you is as under:

Whether my career is bright and will I get commanding position in job, as your 10th Lord has formed very good Raj Yoga and Dhan Yoga.

Any chance of promotion this year, in this connection, I must say that there are chances of promotion by the end of this year i.e. 2009.

Regarding Mech software field, you will be successful in that venture and you should try your hand but it is only after September, 2009.

Any abroad chance for job?? when??? will I travel frequently abroad, there are many planets supporting this and there are great chances for job in abroad and I promise you that your horoscope is apt for job in abroad.

Will I be strong financially your horoscope is very financially strong, it is backed with very powerful Dhan Yoga in the 4th house which is also aspecting your 10th house

Regarding marriage and other points, you will have good marriage and I assure you that you will rise more in your life after the marriage. She will also be supporting financial, I mean working women.

There are less chance of love marriage however, you will have good and decent marriage.

Regarding Rahu Dasa, you will gain or achieve many heights during this Dasa as Rahu has become Yoga Karaka planet and formed very good Raj Yoga along with Mercury and Venus in the 4th house

My best wishes are with you.

6. As Saturn is in opposition of Moon, You will need to lead your highly demanding professional life in one hand and your personal life on the other. You may get into romantic affairs. You are a true professional and with a little extra effort, you can achieve success. You have a set of ideals in your life and you will stick to them. You can at times be emotional but you will attain spiritual maturity. I am sorry to say

but mechanical was not the right career for you to choose. According to your chart, LAW was the subject which you were suppose to take, where knowledge of rules and regulations are required. If Mercury is in an angular (kendra) position from Ketu, you will gain academic distinction and will have many journeys. If Ketu is situated in it's own star Moola, it will give you inux of wealth by your own efforts from a distant or even foreign place; if Ketu is situated in Moola star, then you will have very large gains through foreign trade. As the the lord of 4th house indicates pro\_ts while the 9th rules over foreign countries, you may earn good pro\_ts from foreign sources. you will be employed in private organisations and may give a few changes. You will have good education and your family-wealth will be ever-waxing. In your chart, the \_fth-lord is situated in the second house, which is called the house of wealth (Dhana). This gives rise to a favourable 'Dhana Yoga' combination and you will be very fortunate in respect of all favourable 2nd house attributes : wealth, family, speech, education, property, food and drink, enjoyments, etc. In addition, if the 2nd-lord is also found to be situated in the 5th house, then you will be rolling in wealth by having boosted earnings from speculative investments, sports activities and/ or from entertainment \_elds. You will tend to take big risks for which your earnings will considerably uctuate between the extremes. You will have well-built, nicely-decorated house(s) to live in style and comfort. You will also have most attractive and luxurious conveyances. As regards domestic environment, peace, like Moonshine, will surround you and give you happiness illumined. Your chart indicates you are likely to get married between 26 and 30 years of age. Your marriage will be fruitful and you are likely to have more sons than daughters.. The planetary combinations in your chart favours a fairly happy married- life. You will have considerations for each other and will be a loving pair. Occasionally arising minor differences you will accept as to be only natural but those will vanish soon as you will adopt a compromising attitude. YOur wife will be a chemical engineer by profession & she will leave her job after giving birth to a male child. Your spouse will hail from a wealthier family & she will be your neighbour or from your locality. Yours is a arrange marriage. Foreign places are harmful for your wife. So please avioid faoreign journeys with your wife. You will be interested in literary pursuits and will be fond of music. Your interests in too many things will make you a jack of all trade. You may have to face some obstacles and you may have to struggle till about the age of 30. Thereafter you will have continuous and steady progress, which will continue till about the age of 55. You are likely to become very stingy and will be very much fond of pomp and show. Your expenditures might tend to exceed your income, as you will be inclined to meet his desired objects at any cost. You will be prone to migraine headache and if a\_ictions are present in your chart, then you may suffer from heart trouble or similar ailments. You should adopt proper remedial measures for warding o\_ the undesired inuences.

7. Dear sir,

After noting the contents, I came to the following conclusions.

1. career: you are basically an Engineer concerned with Electric Electronics and mechanical in a \_rm which is famous under commercial aspect. The 10th lord being in conjunction with exalted Mars, the career is considerably good as Mechanical Engineer in Marketting Divison.From 29th Sept.2008 to 11th Sept.,2009 The period of saturn under Ravi (sun) is running. The period is better \_nanacially. A promotion is also expected in this period, but not to your utmost satisfaction.

2. Chances of Abroad: A chance might have happened during the period of 11th Dec., 2007 to 29th Sept.,2008. But, it is not far from your land, for longer duration. A major movement may be in the Mars period nearly a decade later. But frequent movements for short time is more likely always.

3. Financial status: Not sound. But feel better from father's help.

4. Marriage: A traditional, Good looking, Well Educated and financially sound girl marrys you.

It is a traditionally arranged marriage, but not love marriage as the 7th Lord jupiter is looking its own house. The matrimonial life is also good.

5. No spiritual progress is expected. The presence of Mercury in 5th house can make you mad with mathematics, but not much useful to your career in future.

6.Rahu maha dasa may destroy your job prospects. You may be away from your beloved father during that long tenure of 18 years.

7. In Dasamamsa, there is only one planet in 5th, i.e., Rahu. The rest are in 4th. Mainly the Dasamamsa lagna is for your job prospects. Hence it may not be any indicator of marriage.

8. From Navamsa chart it reveals that you can have an old structure of house and

modified further besides the banks of a holy river. You may not have any financial inconveniences after the age of 30 years . You can have an old vehicle which can give a lot of fuel efficiency.

9 On the whole, even though you are some what moody appearance to most of your nears, you can enjoy good fortunes in future.

10. Dear Anonymous,

Let me first apologize on behalf of my sister Supriya. She asked me to post this reply on her behalf as the system did not allow her to do so.

She checked your details and concluded that she had wrongly taken your time as 4:00 hours while it was 00 hours and 4 minutes. Now, your correct interpretation given by her is as follows:

Lagna is Kanya and lord in 4th house making a very good Rajyog with shukra.

Shani exalted in 2nd is also very good for wealth. But Shani gives good effects later in life so it would be advisable to have patience and wait for good wealth prospects.

Career lord is same as Lagna lord and fortunately it is also aspecting its house from the 4th house, so you will have a good career. But because career lord is conjunct Ketu, you might not be satisfied with your career and even feel detached from it.

Moreover 4th house has third aspect of Saturn so again here also, the effects will be delayed till you are 30 -35 years of age. 12th lord sun contributing to a Budh

Aditya Yog and conjoining Lagna lord and career lord will give you a job in MNC or even in Foreign lands. In both the cases, job will be good, but you will have some emotional problems of dissatisfaction from it.

Your lord of marriage is placed in 3rd house. It is believed that if marriage lord is in 3rd house, the native gets a very loving spouse. Marriage can also be delayed because saturn aspects Shukra which signifies marriage. But since Shukra is also conjunct Lagna lord, you might get good benefits from your marriage.

11.

Dear friend Anonymous C,

1. Whether my career is bright and will I get commanding position in job??

Dear Mr. Anonymous

Your birth chart indicates Kanya Lagna with Makar Navamsha. Your Janma rasi is Mesha Rasi, and Janma Nakshata is

Ashwini (2nd chara).

Sun (12th lord) is in 4th bhava and is in Rahu-Ketu axis with Labhamsha, and conjoined with Venus (9th & 2nd lord), and Mercury (10th & Asc. lord), indicates, foreign education, training, service, income and travels.

Mars (3rd & 8th lord) is exalted in 5th bhava with Rajyamsha and in the Nakshatra of Moon (11th lord), indicates, strong interest in research oriented projects and their success.

As per Vimshottari Dasha Pattern, you are now running Sun mahadasha with Jupiter antardasha up to 29th June 2009.

In Gochara, Saturn is transiting in Simha Rasi in 12th bhava. Jupiter is transiting in 5th bhava in Makar Rasi. Rahu is transiting in Makar Rasi.

Basing on the Dasha and Transit of planets your questions are answered hereunder:

Whether my career is bright and will i get commanding position in job?? Any chance of promotion this year.??

Planetary position in Ur chart indicates, that your professional career is very strong.

You will have a promotion

in October 2009.

I am mech design engineer trying for job in mechanical software development. will i be successful there?

Any other fields like stock, finance plz suggest me.

Ur chart indicates that U are best suited for research oriented projects and ample

scope for development. You can also succeed in finance management / Financial Analyst.

Any abroad chance for job?? when??? will i travel frequently abroad??

Yes. Your chart promises foreign job and income, and there will be many foreign travels for you in another 2 or 3 year time.

Will i be strong financially??

Yes, but you will not have satisfaction with what U are getting and U suffer with a feeling that U are under paid for Ur efforts.

When can i get married also about my wife, her looks, her career etc.

You will have marriage in June 2010. Your spouse will be Satwik nature and good looking, and career-oriented person.

She will be coming from Northern direction from your birth place.

Will i have love/ intercaste marriage??

Although you may have a love affair, but it will not be converted into marriage.

Finally you will have an arranged marriage only.

Is my navamsa chart is having vipareet raj yoga and other good yogas plzz tell ?

Yes. There are Vipareet Rajyogas in your Navamsha chart, which indicate sudden favourable results from unexpected quarters.

May God bless you with prosperity and happy marital life.

With best wishes,

14. You entered Surya dasa in Aug2006. Surya is the 12th lord of loss jammed with Ketu in the 4th house. Surya is with Ketu in almost all divisional charts. Both Sun and Moon are also in the star of Ketu. So Ketu governs your happenings strongly. Ketu in the 4th indicates that in the recent past you have created security by stabilizing or controlling your emotions and reactions to the events of your life. You are, as a result, strong internally or at least appear so. You would have more success in creating security by going inward than in tackling things external. Internal suppression can lead to eruptions. Emotions are controlled rather than enjoyed - this leads to chaos in external environment ruled by Rahu in the opposite pole to the 4th house. Ketu in the 4th indicates strong feelings about the things that are important to you. Ketu in Sagittarius cultivates strong belief system, faith and an understanding of higher realms. Indecision can result when faced with decision making as Rahu in Gemini would require testing your beliefs through trial and error to find out what really works for you.

Ketu/Sun combination would free you from ego identification. Ketu creates strong self-doubts. You will feel a strong need to establish perfection in all your actions. You could be hidden and feeling insecure though you enjoy power. Importance, power and influence do not satisfy your need for higher fulfillment. You would be always dissatisfied and would be seeking something which would seem eluding though to others it might not be obvious at all.

You would have great doubts with your rational understanding also as Ketu has joined Mercury. You always win debates but when alone you acknowledge something outside your understanding. Indecisiveness, anxiety are likely.

Ketu Venus combine gives discontent with worldly delights even though there is an initial expectation of fulfillment from these things. Pride is never excessive as Venus the planet of pride is mellowed by influencing Ketu. You could develop interest in spiritual poetry and devotional literature.

The luminaries govern the eyes. So take utmost care of your eyes. Ketu with Sun can affect the bones. Regular exercise, Suryanamaskar would help in keeping the blood irrigating all the organs properly. There is a curse of a Brahmin in the past life. Health problems could surface because of this. Problems to your father could also be a concern. You will get in to a spiritual life. Danger by fire/electricity/chemicals is also a concern. Avoid choosing Sundays for any events - Sun has very low kalabala. Also east is a bad direction for you as Digbala of Sun is very poor. You would not have any keen interest in governance or people leadership as Sun is very weak in Chetana bala. Still Sun dasa can give power as it is a Yogada aspecting both arudha lagna and Ghatika lagna. Nervousness/Epilepsy convulsions are generally the portfolio of Sun/Ketu combination. So practice relaxation and yoga to soothe the nerves. Take regular oil baths.

- 1) Surya is the chara pitrukaraka
- 2) Surya joins the 9th lord Venus in the 8th house from it
- 3) The 9th house from Surya happens to be Surya's house Simha
- 4) Arudha of the 9th from Surya is Aries the 8th house aspected by exalted Mars

and Saturn.

5) Surya has joined the arudha lagna, the arudha of 12th to Sani ie., of loss

6) Surya is the 12th lord

7) Surya's disposer is 12th to Surya

8) Surya is aspected by exalted Sani

All these are not conducive for the well-being of your father. Navagraha shanti and Mahamrityunjaya homa would do good.

Surya is opposite to his 10th house of power. He would not be able to uplift you highly in financial matters. He can give you excellent spiritual upliftment.

You will get a very good wife. Venus is in her own house in navamsa and in her own star. Moon is in upapada lagna. So you would get a fully feminine lady. There is a likely chance of an inter caste marriage as Rahu is in the 7th from Venus (marriage) and Rahu disposes 5th lord (romance) Saturn and is in Makara in navamsa in lagna. The 7th lord Jupiter is in the 5th lord's star. Mars is the 5th lord from Venus and he is in the 5th house from lagna. He disposes the 7th lord Jupiter. So marriage (7th) and romance (5th) are highly linked. But the marriage comes through with difficulties because of the involvement of Mars and Rahu.

You are likely to get married in the end of 2010 or beginning of 2011.

Your Rahu Mahadasha would be materially very good.

Mercury as 6th lord in 12th gives you Viparita Rajayoga in navamsa.

Best wishes.

You are born under aswhini nakshatra, kanya lagna and mesha rasi.

Lord of 10th budh is in 4th house. Rahu occupies the karmastana, a kendra house.

Lord of the 12th house, sun and lord of 2nd and 9th Venus are occupying the 4th house and subjected to aspect from Rahu. Sani a karaka for career is also well placed in a friendly exaltation sign and aspects your 10th lord.

Career: You will have fairly good gains from your occupation. Your 10th lord budh is free from any combustion and so you will have the benefits of budhaditya yoga. Rahu in 10th gives you the passion to set and achieve goals for professional advancements. Further yogakaraka venus in 4th is also aspecting the 10th house you will be successful in your ambition and efforts. As 9th lord is placed along with 10th lord in the same rasi and both of them aspects the 10th you will be duty bound in your work and would aspire to be a role model. You may be rewarded with a promotion too. But you have to be careful of your colleagues and rivals at the workplace as they may devise ploys to retard your progress, as your 11th lord moon is in 8th and 3rd lord and lord of 8th mars, exalted, is aspecting the moon. Ketu and Sun are in a planetary war so some friction at workplace is indicated. Period from Jan 2012 will be excellent for you, as bhukti of venus and rahu will bring you the fruits of hard work.

Though your earnings are good, you will be thoughtful and practical in your spending, but people may mistake you for being a miser. As 9th lord and 12th lord are in 4th house, you will have investment in immovable properties. There are no indications in your chart for going abroad.

Marriage: Your 7th lord jupiter in the 3rd house is strong and unaspected. You will get a beautiful wife from a respectable family. She will be well educated and employed and will be fond of travelling. Intercaste marriage or love marriage is unlikely and not advisable. If you pursue a love relationship it will boomerang on you leaving you with a bad taste and disturbed mind as your 8th lord is exalted in the 5th house.

16.

Anonymous,

According to your chart, the lord of seventh house of Virgo ascendant is Jupiter so you get a lot of happiness from married life. But will have late marriage.

You are currently running Sun Dasha and Jupiter Antardasha. During the Mahadasha of Sun one may expect to obtain wealth through medicine, weapons, land and royalty. One may also experience a deep inclination towards spiritualism. One can expect to get increased physical beauty and opportunities of going on pilgrimages. There can be fear of theft, enemies and the government. Loss of reputation, decrease in the number of the servants and hardships while traveling may be caused. Harm related to one's spouse, children, wealth and land are also indicated during the mahadasha of Sun. Sun being a separative planet, one may be separated from parents and friends. Domination by one's spouse and a fracturing relationship with friends is also strongly indicated. One may suffer from pain of venereal diseases, fever and mental anxiety. Disease of eyes, teeth, abdomen and

headaches may also cause pain and irritation. Anger increases and gastric problems may cause uneasiness and trouble. Parents will be happy. Favorable associations and friendship may develop with government employees and one may expect to gain their help in sorting out personal/ professional deals. Sun mahadasha may also cause anxiety, sour relationship with brothers, friends, and separation from spouse, son and father. One may migrate and settle abroad. Fame may be attained due to education. A state honor and attainment of wealth might bring happiness to oneself and one's family. There can be strong chances of getting success in important work and an increase in status/ promotion. Recognition and popularity in the world may increase also as one may acquire wealth from external sources. Highly ambitious plans may be successful and one may expect to progress. Fearlessness, positive attitude and high expectations could lead to success and triumph. Desires to attain high authority and power may develop.

Jupiter AntarDasha. One would earn respect from authorities and chances of promotion will be really strong. One may get fame in education and increase knowledge. Deep inclinations towards spirituality may develop and can lead to good deeds and increased faith in God. A religious pilgrimage may be undertaken. Desire to get material wealth like good clothes and gold ornaments may be scrumptious and hard to resist. One may be blessed with a son and the son may acquire wealth and destroy enemies. There can be an increase in worldly comforts like buying new vehicle, gain of wealth etc. This can also be good time for Marriage and birth of children. One may experience discomfort to spouse and children, pain in the body, falling short of desired goals and may suffer losses due to sinful deeds, mental tensions and anxieties.

Hello Anonymous ,

You belong to Ashwini Star and Aries moon sign and presence moon in Aries is good

This gives a good complexion, makes the person emotionally volatile and impulsive with a tendency to jump into things without giving due consideration. There will be a tendency to be dominating, and influenced by loved ones and hypersensitive. The knee area may be weak.

You are generally goal-oriented and focused people who are not afraid of hard work. Most are achievers by nature, and many possess well-defined ambitions well-defined to themselves more than anything. You are not particularly shy people, but their drive to succeed and to make your life secure is strong, even if it's not right out there for the world to see.

Anger is expressed in a rather cool, level-headed way with this position of Mars.

Self-control is strong when it comes to expressing anger, drive, energy, and sexuality

As regards marriage could be love marriage , married life should be good . You

Navamsa Chart shows Rahu ketu dosham. Saturn aspecting moon in 8th house disturbs your mind and creates frequent illness.

Shobana

You don't have veepareeta Raja Yoga you have bhuditya Yoga

As per the calculation your navasam doesn't have rahu and mer in 5th house .

My views -

Whether my career is bright and will i get commanding position in job??

Yes. 10H has Rahu in Gemini aspected by Mer (Asc & 10H lord), Sun (12L), Ve (2nd & 9L) with Ketu from 4th house Sagi.

Any chance of promotion this year??

This year chance is little less. But next year very bright chance, when Sat will be aspecting your 10H.

Any abroad chance for job?? when??? will i travel frequently abroad??

With Rahu in 10H aspect by 12L Sun abroad chance is there. But with 12L Sun in 4H chances are less. May not be frequently.

Will i be strong financially??

Yes. You should already be making lot of money through your current job due to above 10th house aspects. With 2nd L Ven in 4 you must be from a well to-do family.

When can i get married also about my wife, her looks, her career etc.

End 2009 or anytime in 2010.

You wife will have fair complexion, beautiful, wealthy, may travel in India/abroad at times, good at communication, very sweet nature, disciplined, religious, loving, clear mind, medium built, well employed, rich. Basis 11 L Moon in 7H in Pisces Aspected by Jup without any a\_ctions. Plus your 4H becomes her 10H.

Will i have love/ intercaste marriage??

Chances appear less. 8L Mars in 5 H of Romance. But 7H well placed with 7L Jup aspect. Though 7L Jup is in papakartari yoga he is not a\_icted. You will have an arranged marriage with full religious ceremonies.

will my rahu mahadasha good??

Currently you are in Ve-Ju-Ju. Rahu dasa starts as 7th Dasa fom 23-11-2041 to 2059.

Rahu sitting alone & getting aspect from 4th H occupants as above, Rahu dasa will also be good.

23.

Whether my career is bright and will i get commanding position in job??

Yes, you will do excellent after the age 28.

Any chance of promotion this year??

Yes and only if you work hard. Stars are favoring you.

Any abroad chance for job?? when??? will i travel frequently abroad??

Yes, and you may be abroad already. You would either settle in abroad or travel quite frequently to abroad through out your life.

Will i be strong financially??

Yes and very much. Your stars are in your favor.

When can i get married also about my wife, her looks, her career etc.

You will get married after the age 28/29. It will be a love marriage. She is average looking but you will love her, and that's the important aspect of your marriage.

Will I have love/ intercaste marriage??

Most certainly, intercaste marriage.

any chance of spiritual progress ??

Not until age 50/55.

will my rahu mahadasha good??

Yes eventually, but it makes you work hard. There is shortcut to success.

Is my navamsa chart is having vipareet raj yoga and other good yogas plzz tell

Yes you do have, and it takes time to see the results. You won't be a King tomorrow. You need to earn those yogas, and stars are in your favor if you work hard and are focused.

24.

Hi Anonymous,

Your Lagna is Virgo. Mercury is lagna lord and 10th lord and it is in dhanu sign which is the sign of Jupiter. There are some more planets in the 4th house (including the lord of 12th house). This will give connection with foreign country but not stay in foreign country.

Your chart shows that there are problems in domestic peace. You are not having very good relations with your mother and that is a cause of stress for you.

Rahu mahadasha will not be bad for career and also will give money as 10th is upachaya house and it does not give problem in money. It will also give you lot of courage and activity for your job. It might cause job changes but even that would not be a major problem.

With the house of family and house of domestic peace affected there could be problems in relationships and with relatives. Always make sure you do not aggravate the matter by speaking harsh words. As such you would not be harsh in speech because of the presence of Jupiter in the house of communication but still try to avoid conflicts at home.

Your marriage will be love marriage and if both of you work and do not stay together at home for long hours, there will not be a problem. As your house of home comforts is affected, it can give you emotional issues at home so avoid making fuss of minor issues...

25.

Whether my career is bright and will I get commanding position in job??

As per your chart you have a Virgo ascendant, and mercury is happily and comfortably placed in 4th house with Sun, Ketu and Venus, thereby making a stallium by house and sign. It altogether aspects the 10th house, therefore a strong cosmic support is indicated in the house and place of profession and career. It's likely that by the year of mid 2010, you are likely to get enough opportunities in your career and profession that would uplift your status and rankings at the professional front thereby causing strong hold of financial prospects too.

Any chance of promotion this year??

Yes there are very faint chance of promotion during the time of May and June. If you do not get such then it is promised by the end of the year and first of the next year.

Any abroad chance for job?? when??? I don't want to settle there but would like to take some job experience. will I travel frequently abroad??

Yes you have a chance to go for a foreign trip for professional purpose. It is likely by the end of the 2010. It's likely that frequent traveling and chances are more that you are to shift to some foreign place for some time on professional requirements.

Will I be strong financially??

It would be by the year 2011, that you would develop a enough sound financial prospects which would promote you and give you a solid financial platform for the rest of your life.

When can I get married also about my wife, her looks, her career etc.

Your marriage is indicated to be by the next year, i.e. 2010. Your wife could be of a middle statured, round face and healthy body. She would be of sharp features with clear and fair complexion. She would not be working at the time of marriage, but at later times, after marriage she is likely to work. Her possible field would be management side.

Will i have love/ intercaste marriage??

NoAs far as love marriage is concerned I can only see several unsuccessful events, in affairs only but I fear that no one of that could materialize to permanent settlement as marriage. So what I feel that you would have a well settled marriage. The family may be known prior to some how to you.

will my rahu mahadasha good??

Definitely your Rahu Md will be good provided at the professional front. But at the other factors as your family, health and social circle would be disturbed. The start, mid and end phase would be highly turbulent in negative sense.

You can wear an Emerald of 5 crts in gold in small RH finger on wednesday morning. An Opal of 7 crts in silver on friday or Monday in first finger RH would be of added beneficiality.

Its very important to you to do some occult remedies that would repel the ill effects of Rahu and Mars to prepare the shield for you. for that pls come directly through [www.astrofriend.am](http://www.astrofriend.am)

You are facing some obstacles in your professional career and you may have to struggle till about the age of 30. Thereafter you will have continuous and steady

progress, which will continue till about the age of 55. There are no chances of promotion for you before 2013. According to your chart, it shows that Chances for moving abroad are seen in the second quarter of year 2014. You are born in a very wealthy family and will earn a vast amount of wealth in your life by your own endeavours. You will spend a pleasant and luxurious life with ease and all sorts of comforts. You are likely to get married between 26 and 30 years of age & will be blessed by 2 sons. Yours will be an arranged marriage. In your chart, Rahu is placed in sign Gemini. If Mercury is in a kendra position from Rahu, you will gain academic distinction and will have many journeys. If Rahu is situated in its own star Aridra, it will give you sudden influx of wealth by your own endeavours from a distant place. I will suggest you to wear 5 Rattis of GREEN EMERALD (Panna) in a ring of Gold & should be worn on right hand small finger on a Wednesday & chant "Priyamgukalikashyamam Rupenapratimam Budham Soumyam Soumyagunopetam tam Budham Pranamyaham".

36.

According to your natal reading I have placed this conclusions.

He looks for love, but not any sort of love, it must be the pure and perfect kind.

The search will probably take a long time.

Loves are sincere. He is basically attracted to those with problems, which complicates life because he takes on those people's problems. His feelings are deep, stable, solid, de\_nite. He is not very expansive and can be melancholic.

His best years are in the parental home and also the last years of life. That said, the rest are not unhappy, but contain certain hurdles. Love can help in professional life, he has a gift for seduction. He likes to entertain: he likes comfort and the attractions of home-life.

Professional success can happen abroad or in connection with foreign countries.

Faraway voyages are profitable.

Financially not very well o\_, average salary. The spouse is also not rich. Possibility of a small inheritance, which helps a lot. Long life and natural death, if the aspects allow.

Impossible to stay in one place, frequently changes home. If the job is monotonous, he will often change \_rm. The ideal profession would be one offering a lot of change, moving around, meeting lots of new people. An equally erratic love life is to be expected.

Marriage more of the head than the heart, which will last in spite of a few hiccups.

The spouse is honest, hard-working, intelligent and cunning.

Job involving travel, especially abroad, and if possible with some risk attached. One of the professions.

Friends can bring quite a lot of problems.

If you need any help do feel free to contact me anytime. It would be my pleasure to help you.

hi Anonymous

your astro prediction is given below

Rising Sign is in 26 Degrees Virgo

You tend to be very shy and not very self-assertive. You are supercritical about how you appear to others. Even though you may think you are uninteresting and dull, you are actually quite soft-spoken, orderly, neat and very likable. You are a perfectionist with high standards, and at times you can be quite tactless in pointing out the faults of others. Very practical, efficient and purposeful, your appearance and bearing correct your need to appear graceful, sensible and reserved. You have a crisp, no-nonsense approach to dealing with others. Never lazy or self-indulgent, you tend to be dedicated to the work ethic.

Sun is in 03 Degrees Capricorn.

Extremely serious and mature, you are capable of accepting responsibilities and do so willingly. Others expect you to be dutiful as a matter of course. You tend to get angry when people get rewards after not having worked anywhere near as hard as you. You are goal-oriented and an achiever by nature { you're a hard worker and are justifiably proud of the tangible results of your efforts. You tend to have "tunnel-vision" { this allows you to block out extraneous matters that might distract others and to concentrate totally on the matter at hand. As such, you are the ideal one to manage or administrate any ongoing project and to be practical and efficient at it. You are not a fast worker, but you are quite thorough. You are known for being totally persistent, tenacious and tireless in reaching your goals.

Moon is in 29 Degrees Aries.

High-spirited and courageous, you are a fighter when your emotions are aroused. The degree of force and drive that you can bring to any effort sometimes surprises others. You have hair-trigger reactions to specific stimuli and tend to "let it all hang out." You sometimes act before you think and do things on the spur of the moment, and that sometimes gets you into trouble. Your moods change quickly { you have quite a temper, but you don't hold grudges. Very independent, with an extremely strong and forceful personality, you are known for being impulsive, careless, reckless, foolhardy, rash and daring.

Mercury is in 22 Degrees Capricorn.

You are a careful thinker, very cautious and conservative. You are quite skillful at organizing, directing and planning activities. Practical and useful things interest

you { you are not attracted to abstract thoughts or ideas. With your tendency to be highly focused and very goal-oriented, you have a good head for business. But beware of a tendency to be narrow-minded and dogmatic. Your sense of humor tends toward being earthy and slapstick crude.

Venus is in 16 Degrees Capricorn.

You tend to keep your feelings under control { emotions are only released in serious or important situations. You are distrustful of others whose behavior could be judged excessive or immoderate. As such, you prefer to relate only to those who are older than you or to those whose position is such that respect and duty are more important for both of you than passion or emotional response. Be careful, however, of relationships that are merely based on practicality or utility or you will ultimately be lonely.

Mars is in 12 Degrees Aquarius.

Your ideas and opinions are usually inventive and original, but sometimes they are merely eccentric and offbeat. You are altruistic { you will work hard for the attainment of group goals, as long as they meet your high standards. You tend to resent traditional authority figures because you think that your ideas are better thought out and more valuable than theirs. Very idealistic, you are a rebel WITH a cause!

Jupiter is in 29 Degrees Scorpio.

You love to dig deep beneath surface appearances in order to find out what is really happening. A persistent researcher, you are very interested in the psychology of any situation. You tend to become overwhelmed by the complexity of what you uncover, however, and that makes you a bit gun-shy about explaining things to others. But you must learn to try to communicate as best you can because what you know is really very valuable to others.

Saturn is in 02 Degrees Scorpio.

You tend to release emotional energies only very reluctantly. This is partly due to your fear of what horrible calamity might occur should they be released { your emotions are terribly complicated and intense. Try not to repress these energies entirely, however, or you will succumb to negative and destructive forms of compulsive behavior. Give yourself the freedom to look awkward or silly once in a while. The relief you feel will be quite therapeutic and the embarrassment (whether it is real or imagined) will pass quickly.

Uranus is in 06 Degrees Sagittarius.

You, and most of your peers, have the tendency to think that all ideas, customs and traditions from the past are outmoded and irrelevant. You are attracted to radically new ideas, philosophies and religions that will, hopefully, cause sweeping changes throughout the world.

Neptune is in 27 Degrees Sagittarius.

You, and your entire generation, are heavily involved in investigating and idealizing foreign and exotic intellectual systems and religious philosophies. The most extreme ideals will be pursued with gusto. You will be at the forefront of humanitarian attempts to improve the lot of those who are in need of assistance. You will be comfortable with the concept of the "global village."

Pluto is in 29 Degrees Libra.

For your entire generation, this is a time of radical changes in society's attitude toward marriage and interpersonal relationships. There is a general fear and awe at the power inherent in making emotional or contractual commitments { they will not be entered into lightly.

N. Node is in 04 Degrees Cancer.

You genuinely enjoy meeting other people, but you're at your best if you can do so from the comfort of your own home. You prefer others to come to you and tend to feel uncomfortable about leaving your home or neighborhood for any extended period of time. Those who do come in contact with you are struck by your caring and obliging nature { you really make them feel at home. You form the closest ties, however, with members of your immediate family, especially your parents and children. You're at your best attending or organizing family reunions!

i think this will give the answer for your question. all the best
